

High Density Polyethylene Pipe (HDPE)

Since 2002 we have been supplying and installing HDPE pipe, we have ample experience working with all contractors, developers as well as city and county entities.

Equipment

We maintain the largest fleet of McElroy fusion equipment in the valley; our equipment is available for rent or sale and ready to ship anywhere in the west. All of our equipment is maintained to manufacture specifications. We also staff McElroy certified and trained operators and techs.

Materials

We stock a large inventory of pipe and fittings in every diameter, if we do not have the parts you are looking for chances are we can manufacture them for you in our state of the art facility. Or order them and have them ship to you usually within 24 Hrs. When it comes to HDPE pipe and fittings we are your one stop full service distributor.

We are a full service provider we hold a General A contractor's license, we can assist on your project from start to finish, we have ample experience and have done installations for; lift stations, discharge or pressurized lines, private and public projects.

We are a service first company, a DBE accredited in Nevada and Arizona.
