

Cross Country Infrastructure Services Appoints Michael Disser as Vice President of Sales

FOR IMMEDIATE RELEASE

Cross Country Infrastructure Services Inc. ("CCIS"), a leading supplier of construction equipment, pumps and consumables to infrastructure projects in North America, has appointed Michael Disser as the Vice President of Sales. Disser will be responsible for sales team leadership and focused on implementing value-added rentals and sales programs that support the national revenue and profit goals of CCIS.

"We're thrilled to be welcoming Mike to the CCIS team," said John James, CEO of CCIS. "Mike's remarkable ability to lead teams in the equipment rental industry makes him a strong addition to CCIS. We look forward to adding more experienced professionals like Mike to our team as we continue to grow and diversify the business."

Prior to CCIS, Mike held several key executive Sales and Marketing positions at NES Rentals Holdings and holds a bachelor's degree in Marketing from Southern New Hampshire University. His educational background coupled with over 20 years of experience in the rental equipment industry will be most beneficial in helping him to build innovative customer-centric strategies while extending external relationships in diverse industry verticals. "I'm excited to continue the development of the employees and talent of CCIS," said Mike Disser. "I look forward to providing strategic direction, value and growth opportunities to the organization and our customers."

This step furthers CCIS's goal to continue growing since its formation in December 2016. For more information about partnering with CCIS, visit our website at www.crosscountryis.com
